Description

Hi,

I'm using eXtplorer 2.1 RC3 and for some reason the sorting feature doesn't work on any column.
"Sort ascending" and "Sort descending" is always grayed out. Clicking on one of the columns has no effect either.

I've attached a screenshot.

History

#1 - 06/18/2011 04:37 AM - Tim Alatorre

- Status changed from Neu to Erledigt

- Assignee set to Tim Alatorre

- % Done changed from 0 to 100

This was a problem with the column model definitions in application.js.php. I fixed it in the trunk revision 198.
