

eXtplorer - PHP-based File Manager - Fehler #195

missing localization on login screen

09/27/2015 03:24 AM - emanuele liparesi

Status:	Neu	
Priority:	Normal	
Assignee:		
Category:		
Target version:		
eXtplorer Version:	2.1.4	Joomla! Version: none
Description		
When you login the please wait text is not localized: the fix is really simple		
open include/authentication/extplorer.php		
find		
Ext.get("statusBar").update("Please wait...");		
replace with		
Ext.get("statusBar").update("<?php echo ext_Lang::msg('please_wait', true) ?>");		
and add this string on all lanaguage file		
//missing localization added by selven		
"please_wait" => "Please wait..."		

History

same problem on other files, here the complete list:

```
eXtplorer_2.1.8\include\admin.php (3 hits)
  Line 109:          statusBarMessage( "Please wait...", true );
  Line 250:          statusBarMessage( "Please wait...", true );
  Line 535:          statusBarMessage( 'Please wait...', true );
eXtplorer_2.1.8\include\authentication\extplorer.php (1 hit)
  Line 83:          Ext.get( "statusBar").update( "Please wait..." );
  Line 156:          Ext.get( "statusBar").update( "Please wait..." );
eXtplorer_2.1.8\include\copy_move.php (1 hit)
  Line 177:          statusBarMessage( 'Please wait...', true );
eXtplorer_2.1.8\include\diff.php (1 hit)
  Line 133:          statusBarMessage( 'Please wait...', true );
eXtplorer_2.1.8\include\mkitem.php (1 hit)
  Line 131:          statusBarMessage( "Please wait...", true );
eXtplorer_2.1.8\include\rename.php (1 hit)
  Line 117:          statusBarMessage( 'Please wait...', true );
similar on eXtplorer_2.1.8\include\edit.php (2 hits)
  Line 198:          waitMsg: 'Saving the File, please wait...',
  Line 228:          waitMsg: 'Processing Data, please wait...',
to be replaced with
  Line 198:          waitMsg: <?php echo ext_Lang::msg( 'saving_please_wait', true ) ?>
  Line 228:          waitMsg: <?php echo ext_Lang::msg( 'processing_please_wait', true ) ?>

and add this string on all lanaguage file

//missing localization added by selven
"please_wait" => "Please wait...",
"saving_please_wait" => "Saving the File, please wait...",
"processing_please_wait" => "Processing Data, please wait..."
```
