<b>Description</b>		
<p>I have read the issue <a href="http://extplorer.net/issues/19">http://extplorer.net/issues/19</a> and have applied the change to the file ext-all.css. It actually adds the scroll, but it is not scrollable, so the same issue is happening. I am attaching a screenshot of what I see right now with Chrome, Firefox and Safari.</p> <p>Is there any solution to this? Maybe making the scroll scrollable, or placing the Add, Edit, Remove buttons to the top of that popup?</p> <p>Thanks.</p>		

#### History

I didn't see the bug <http://www.extplorer.net/issues/9> and it is fixed there, so this is fixed too.
