It is the same problem with Joomla 1.7.3

The reason ist the PHP.

With PHP 5.2.x works fine.

With PHP 5.4.9:

Strict Standards: Non-static method ext_Lang::detect_lang() should not be called statically in /homepages/26/d13474738/htdocs/CMS17_TEST/administrator/components/com_extplorer/include/init.php on line 103
[]

Strict Standards: Non-static method ext_Result::init() should not be called statically in /homepages/26/d13474738/htdocs/CMS17_TEST/administrator/components/com_extplorer/admin.extplorer.php on line 97

Strict Standards: Non-static method ext_Result::empty_errors() should not be called statically in /homepages/26/d13474738/htdocs/CMS17_TEST/administrator/components/com_extplorer/include/result.class.php on line 40

Strict Standards: Non-static method ext_Result::empty_messages() should not be called statically in /homepages/26/d13474738/htdocs/CMS17_TEST/administrator/components/com_extplorer/include/result.class.php on line 41

Strict Standards: Declaration of ext_List::execAction() should be compatible with ext_Action::execAction(\$dir, \$item) in /homepages/26/d13474738/htdocs/CMS17_TEST/administrator/components/com_extplorer/include/list.php on line 387

Best regards
JVe

Hallo nochmal,

mit Unterstützung von Sören Eberhardt-Biermann wurde das Problem bei mir gelöst.
Vielen Dank für die Hilfe.

Änderung in der Datei admin.extplorer.php :

```
if( defined( 'E_STRICT' ) ) { // Suppress Strict Standards Warnings
error_reporting(E_ALL);
}
zu
if( defined( 'E_STRICT' ) ) { // Suppress Strict Standards Warnings
error_reporting(E_ALL & ~E_STRICT & ~E_NOTICE);
}
```

- *Category set to Bug*
- *Status changed from Neu to Gelöst*
- *Assignee set to Sören Eberhardt-Biermann*
- *Target version set to 2.1.0*
- *eXtplorer Version set to 2.1.0 RC5*
- *Joomla! Version set to none*

#4 - 03/28/2015 11:01 PM - C haoz

For PHP 5.6 E_DEPRECATED needs to be added:

```
if( defined( 'E_STRICT' ) ) { // Suppress Strict Standards Warnings
error_reporting(E_ALL & ~E_STRICT & ~E_NOTICE & ~E_DEPRECATED);
}
```
